

## **Website, Computer and Internet Acceptable Use**

Our school uses the Internet to enhance student learning. From time to time, we publish on the school's Internet website [www.berkley.school.nz](http://www.berkley.school.nz) material for educational purposes, to share the process and outcomes of learning and to promote Berkley within the wider community. This may include examples of student's schoolwork and images of students and groups of students in activities at the school. Images of students may include scanned, digital or video images of them taking part in school or class activities.

I have read the *Computer and Internet Acceptable Use Agreement* form in the Prospectus and understand that the Information and Communication Technology resource, including the Internet, is available for educational purposes. I recognise that it is impossible for the school to fully restrict access to controversial material. I realise that it is ultimately the responsibility of each student to use the resource responsibly for school related work only. I give permission for my child to be allowed Internet access.

My child understands, and will abide by the conditions and terms set out in the *Computer and Internet Acceptable Use Agreement*.

I further understand that there will be consequences (including loss of ICT privileges in the school) if these conditions are violated.
